

## **Anti Santa Liberation Army**

---

We want Christmas wrapping paper without Santas, pixies and goblins. Vi vil ha julepapir uten nisser

We do not want to be constantly bombarded with Santas wherever we go. - It is vomitile, it make us want to puke!

No to Santas as Christmas decorations.

No to children being indoctrinated into "believing in" Santa.

No to the misconception that Santa songs are Christmas carols.

Let Christianity be Christianity  
and let paganism be paganism.

## **Anti Santa Liberation Army**

It is my opinion that Santa is both a pest and an irritation and, that I shall do everything in my power to fight against Santa's influence in my heart, in my home and in society at large.
